 Drum carpet  
 Drum stool  
 All Drums/Stands must be of good quality  
 ie DW/Pearl Masters/Yamaha9K

**OLD BLIND DOGS 2/3**

**Technical Rider**

Dear promoter / local support,  
this is an overview on our technical requirements. If there are any problems or questions regarding our technical requirements please contact our sound-engineer. This technical rider is part of the contract, and thus should be met to enable us all to have a good show!

**Technical contact:**

Kevin O'Neill UK (44)07977 188266 kvoneill@mac.com

**PA**

Old Blind Dogs concerts require a sufficiently dimensioned and professional PA-system. Although Old Blind Dogs are a „folkband“ their dynamic sound requires a PA-system capable of producing low frequencies. Some of the instruments provide frequencies down to 40 Hz!  
Old Blind Dogs requires a guidance level of 100db(A) (with 6db headroom) at the FOH and consistent frequency response between 30 to 18000Hz with equal levels at all audience areas including front fills / balcony fills if appropriate.

**FOH**

Old Blind Dogs like to work digital:  
Preferably Midas Pro and Allen & Heath digital series. **Please No Behringer Mackie or Yamaha LS series**

If working analogue;  
minimum 24 channels, 6 aux sends (4 pre | 2 post). Additional outboard gear if using an analog desk:  
1 x dual band graphic equalizer for mains  
4 x graphic equalizer for monitoring  
8 x compressors (Drawmer, DBX, BSS)  
1 x Multi-FX (TC Electronics M2k/M3k/5k, Lexicon PCM 80/90, Yamaha SPX990) 1 x digital delay (TC Electronics 2290, D2)

The Console must be positioned central to the stage, at audience height.

**Monitors**

Old Blind Dogs need 4 separate floor monitors (min. 10“) on 4 auxiliary channels with adequate amplification and separate 31-band EQ.

**Please get in touch to confirm FoH speaker system, Monitor system and Desk choice.**

**OLD BLIND DOGS 3/3**

**Backline**

**FOR NON - UK DATES ONLY**

**Promoter agrees to supply at time of booking with no extra charge to OBD's**
